Subject: **AGENDA ITEM 8** – Discussion and possible action on Commissioner Kopp's suggestion at the last meeting that the Commission develop a policy, either by law or regulation, that no San Francisco Commissioner can vote on matters before them unless they have filed their Form 700 Statement of Economic Interests

---

### Background

This item has been placed on the Commission's June meeting agenda at the request of the Chair so that the Commission can have an initial discussion on a suggestion made by Commissioner Kopp at the May 22, 2017 Commission meeting. Commissioner Kopp suggested that the Commission consider developing a law or regulation to prevent voting by city board and commission members who are required to file a Statement of Economic Interests (Form 700) until they have filed their required Statement.

No supplemental materials have been prepared at this time. It is the Chair's intent to hold a preliminary discussion on the matter and provide any further policy direction to staff following that discussion.
