This is an anonymous submission for public comment to the Friday August 13, 2021 full Ethics Commission Hearing on the agenda item to address the fine issued to San Francisco Mayor London Breed for select Ethics Violations.

I am requesting the Ethics Commission investigate and consider Impeachment for violations that rise to removal of office.

I am specifically citing the abuse of power, conflict of interest and ethics violations clearly evident in Mayor London Breed's "strong arming" the SFPUC Commission to appoint elected representative and City Attorney Dennis Herrera as its Director, thus bypassing a legally conducted search to fill this vacated position and opening the City Attorney position to be filled at her "pleasure" during an active investigation of her role in permitting a mixed use development project located at 555 Fulton Street.

I am attaching a letter sent by District Supervisor Dean Preston to City Attorney Dennis Herrera highlighting the serious conflict of interests evident in Breed's unilateral decision to remove an elected official from office to protect her personal, political and legal interests.

Thank you very much for attention to a matter that is widely regarded as meeting full criteria for impeachment of San Francisco Mayor London Breed.

## DEAN PRESTON

April 27, 2021

Dear City Attorney Herrera:

As Chair of the Government Audit and Oversight Committee, I am reaching out in response to the recent announcement of your appointment to head the San Francisco Public Utilities Commission, and your anticipated vacating of your elected office as the City Attorney of San Francisco. Let me start by thanking you for your decades of service to the City and County of San Francisco.

Following the Nuru indictment last year, the Mayor announced on February 4th, 2020, that the City Attorney, and Controller offices would take the lead in “laying out a clear and comprehensive plan to investigate any departments impacted by these federal charges, and committing to fully investigate any related issues they come across.” Over the last year, your office has conducted a public integrity investigation of various departments and agencies in the City. Your office and the Controller have issued numerous reports and made policy recommendations to address corruption. Meanwhile, six heads of major departments have now been charged or resigned due to alleged misconduct.

As you know, under the Charter, the Mayor will have the power to appoint your replacement. The fact that the Mayor will be appointing someone to head the office that is investigating her
