For SFEC use

**FORM SFEC-122:
 TRANSFER OF FUNDS**
 (S.F. Campaign and Governmental Conduct Code § 1.122)

Instructions: This form must be filed whenever funds held in a candidate’s campaign account are transferred to another committee established by or on behalf of the candidate. Any contributions being transferred must be attributed to specific contributors using a “first in, first out” (**FIFO**) or “last in, first out” (**LIFO**) accounting method.

If **FIFO** is used, the first donation received (first in) is the first to be transferred out (first out); the second received is the second to be transferred out, and so on. If **LIFO** is used, the last donation received (last in) is the first to be transferred out (first out); the second to last received is the second to be transferred out, and so on.

On a separate document attached to this form, for each contribution being transferred, state the contributor’s name, contribution amount and date. You must also provide this information on Form 460 filed by the committee that receives the transferred contributions.

On, _____, I, _____
Transfer date Candidate name

transferred contributions between my campaign accounts using the following accounting method:

Old committee (**source of funds**):

| | |
|--|--|
| Committee name <small>(As it appears on Form 410)</small> | |
